More than 160 years of history seep through the walls of this magnificent 19th century mansion. Walk with us as we explore The Convent by night and hear the tales of a bygone era ...and what tales it has to tell! Tread in the paths of the Nuns who once lived here, some of whom still remain behind overseeing their home. As the mist rolls over The Convent, we begin our lamp lit journey into the world of the unknown, of those who are still earthbound.
